CONCEALED HOME CINEMAS.
THE FUTURE OF TV

CONCEALED HOME CINEMA

EVERY HOME NEEDS A HUB OF ENTERTAINMENT, WHETHER YOU ARE A MOVIE LOVER, A GAMER OR JUST LOVE BINGING ON A SERIES. TRADITIONALLY A TV WAS THIS HUB, BUT AS TV'S GET BIGGER AND BIGGER THEY CAN DOMINATE OUR ROOMS. SO HOW DO WE GET AWAY FROM HUGE TVS RUINING OUR BEAUTIFUL HOMES? THE ANSWER... CONCEALED HOME CINEMAS.

THIS IS THE FUTURE OF TV

**THERE WHEN
YOU WANT IT...**

**...GONE WHEN
YOU DON'T**

**THERE'S NO NEED TO
COMPROMISE THE AESTHETICS
OF YOUR ROOM IN ORDER TO
ADD A PROJECTOR AND SCREEN.**

Our hidden home cinema products allow the projector, screen and speakers to recess into your ceiling and walls. With a beautiful high quality flush fitting you will barely notice them when not in use.

At the touch of a button your projector and projector screen will seamlessly lower down to reveal your home cinema. Using an AV

Receiver you can easily connect your projector to all of your favourite devices including TV Boxes, Smart TV Sticks and Games Consoles for an entertainment hub the whole family can enjoy.

Even whilst down our projector lifts have been engineered to look beautiful, fully encased so you cannot see into the ceiling void, the white powder coating and laser cut design produces a stunning high quality finish.

100" + 120" Screens Available
